

# Alt Legal: Distinctively Different IP Docketing Software

Alt Legal is a different kind of IP docketing software company. Developed by attorneys and IP paralegals, our award-winning software is trusted by Am Law firms, leading IP boutiques, and Fortune 100 corporations to handle hundreds of thousands of filings daily. Our cloud-based tools automatically update statuses and deadlines, collect client details, and generate new IP filings. Simply, our service, automation, and ease-of-use are like nothing else on the market.

## Automated Docketing

Alt Legal analyzes global IP office data to programmatically update matters and calculate deadlines and reduce the risk of human error. Our docketing software automatically reminds responsible parties of all upcoming docketing deadlines via emails and calendar integrations.

## Easy Custom Reporting

Our software offers one-click customized reporting emails and letters for internal and client updates. You can also instantly create onscreen and downloadable charts or visual reports to share with clients and colleagues. Your common reports can be saved as templates and regenerated with new docket information with just a click.

## §2(d) Trademark Watch

Alt Legal's §2(d) Trademark Watch is a cost-effective, alternative approach to trademark monitoring that notifies you whenever any of your USPTO marks are cited in an office action, refusing the applied-for mark based on §2(d) likelihood of confusion with your mark. With this service, you have useful intelligence of potential infringement pre-publication that you can use to take immediate action and develop an early opposition strategy.

## USPTO TEAS Filing Tools

Our collaborative intake form securely makes it faster and easier to collect information about a new trademark application and file it with the USPTO. Our unique integration transfers the data directly to the TEAS application without the need to retype anything.

## Pricing, Support, and Data Migration

We keep it simple. Pricing is based solely on the number of docketed matters. Everything is included, and there are no hidden fees. With your subscription you get free data migration, unlimited support and training at any time via phone, email, or live chat, and unlimited user access.
